Multi-Item Collection

THE ANNETTE FUNICELLO BEAR COLLECTION

Historical Background: Annette Funicello — beloved star of Disney's Mickey Mouse Club and a string of 1960s beach films — founded the Annette Funicello Bear Company in 1992, partnering with designer Kim Steele Brown to create fully jointed, hand-finished collector teddy bears. The line continued even as Funicello lived with multiple sclerosis, and many pieces reference her own career: cheerleading, her Mouseketeer days, and her Hollywood stardom. Bears were sold in limited runs, several individually numbered with signed certificates, and the line was discontinued some years after her passing in 2013. This collection brings together eight pieces from that line and its companion ceramics, beyond the Cheerleader Bear already certified separately.
