Teddybär Harlekin 1925 — Steiff Club Edition

Rot/Blau (Red/Blue) 35cm Replica

Steiff Club Exclusive, 2000/2001

DESCRIPTION

This 14" (35cm) mohair teddy bear is a Steiff Club limited edition reproduction of the company's original 1925 "Harlequin" design, distinguished by its striking two-tone red-and-blue mohair split down the face and body, yellow felt paw and foot pads, and glass eyes. It was distributed exclusively to Steiff Club members in 2000/2001 and includes its original presentation box printed "Teddybär Harlekin 1925 — Rot/Blau 35 CM," along with the printed certificate. The bear retains its Steiff Club membership button in the ear, marking it as an official club exclusive rather than a general retail release.

NOTABLE INFORMATION

- ◆ Maker: Steiff, Germany
- ◆ Edition: Steiff Club Exclusive, 2000/2001
- ◆ Size: 14" (35cm)
- ◆ Design: Reproduction of the 1925 "Harlequin" pattern, red/blue mohair
- ◆ Includes: Original box and printed certificate
- ◆ Ear identification: Steiff Club button

◆ *"Steiff's original 1925 Harlequin bear is one of the company's most visually distinctive vintage designs. This Club Edition replica let members of the official Steiff Club own a faithful reproduction, complete with its own*

numbered certificate documenting the limited release." ♦

Honest Disclosure: Comparable Steiff Club 2000/2001 Harlekin 1925 replica bears have realized \$65–\$100 at dealer and auction sale (Ruby Lane, Potter Auctions), with UK dealer retail asking prices closer to \$150–175. This certificate's range reflects that spread, with the higher end supported by the fact that this example retains its complete original box and certificate — pieces with the original packaging intact command a premium over the loose bear alone, since many surviving examples have lost their box over the past 25 years. Exact value depends on close inspection of the mohair's condition, color vibrancy, and whether the individual edition/certificate number is legible, which has not been physically confirmed beyond the photograph provided.
