ruffled edge, Northwood "Good Luck" pattern*

#### Good Luck Pattern Ruffled Bowl

*Northwood Glass Company*

*Early 20th Century Pressed Iridescent Glass*

#### DESCRIPTION

This is a ruffled-edge carnival glass bowl in the Northwood "Good Luck" pattern, one of the most recognized and sought-after designs in Northwood's carnival glass line. The interior features a raised floral and foliate design surrounding a central horseshoe with the words "GOOD LUCK" molded above it, all captured in a deep purple/amethyst glass base with strong, vividly saturated multicolor iridescence — often referred to by collectors as "electric" iridescence for its intense rainbow-like play of blue, green, pink, and gold tones across the surface.

#### NOTABLE INFORMATION

- ◆ Maker: Northwood Glass Company
- ◆ Pattern: "Good Luck" — horseshoe and floral motif
- ◆ Color: Purple/amethyst base glass
- ◆ Iridescence: Strong, multicolor "electric" finish
- ◆ Form: Ruffled-edge bowl

◆ *"Northwood's 'Good Luck' is one of the most iconic patterns in all of carnival glass — the horseshoe-and-floral design was produced in numerous colors and shapes, and pieces with strong, vivid iridescence are especially prized by collectors today."* ◆

**Honest Disclosure:** This bowl has not been physically inspected

for chips, cracks, base wear, or manufacturing flaws, all of which materially affect value in carnival glass. Comparable purple/ amethyst Northwood "Good Luck" ruffled bowls with strong iridescence have been offered in the \$150–\$300+ range on the current secondary market, with exceptional "electric" examples in mint condition commanding the top of that range or higher. No maker's mark was confirmed visually; attribution to Northwood is based on the well-documented "Good Luck" mold design, which is consistently associated with Northwood production.
